Call to Order: 3:30 p.m.

Public Comment: None

Additions/Deletions to Agenda: None

I. Drone Usage and Standard Operating Procedure

- Staff presented the Committee with an overview of the Drone Use Standard Operating Procedure (SOP). The SOP provides guidelines and operating procedures for the use of District-owned Unmanned Aerial Systems (UAS) for public purposes, including enhancing District operations, critical data collection, documentation, and management of District assets.
- The District's interest in the use of drones is a reflection of its continuous endeavor to increase the efficacy of its operations, provide a safe work environment for its employees, and ultimately provide greater value to its customers.

Meeting Adjourned at 4:00 pm
